

In June 2014, in conjunction with “Aidan’s Heart Foundation”, the Borough of Downingtown installed two AED’s in Kerr Park. The first installation is on the Pennsylvania Ave. side of the restroom area, near the ball field; the second location is in the parking lot off of Wallace Ave. at the pedestrian bridge that leads to the “All Abilities Playground”.

DEFIBRILLATOR

We have been working with the Silva’s for many years on the “5K For Aidan J”.

This initiative was the idea of the Silva’s to make the Borough of Downingtown a “Heart Safe Community”, we thank them for their contribution. (for more info, visit www.aidansheart.org)
